Medico-Legal Clinic: Apollo Surgery
619 Kings Road
Great Barr
Birmingham B44 9HW
(1st and 3rd Tuesday mornings of each month)
Tel: 0121 360 8668

All paper correspondence should be addressed to the Droitwich Spa Hospital.

SUMMARY

- Mr Porter is a Consultant Plastic Surgeon with special expertise in hand injuries, diseases of the hand, soft tissue injuries and scarring.
- Mr Porter commenced medicolegal work for complex personal injury in 1996.
- Scarring was one of the issues in two thirds of the medical reports written by Mr Porter.
- Mr Porter has given evidence in Court for one clinical negligence case and at two employment tribunals.
- Mr Porter has undertaken the training and passed the examinations for the Bond Solon Expert Witness Certificate. His name appears on the national register of university certificated expert witnesses.
- Mr Porter is registered for GDPR.

GENERAL INFORMATION

General Surgery Training 1970 - 1980

I had General Surgery training at registrar level, at the Warneford Hospital Leamington Spa, the Royal Free Hospital in London and St Alban's City Hospital.

Plastic Surgery Training 1981 - 1991

I was trained in Plastic Surgery at Odstock Hospital, Salisbury, where I was Senior House Officer, Registrar, Locum Senior Registrar and an Honorary Registrar for research purposes. I had short periods of registrar training at Chepstow, Newcastle and Bradford. My training was completed, with two years at the Aberdeen Royal Infirmary. I had training in emergency surgery, particularly the management and rehabilitation of patients with severe hand injuries. I had training in the complete range of Plastic Surgery including all hand conditions, head and neck surgery, skin cancer, breast reconstruction, burns and cosmetic surgery.

Research Experience

During my period of training, I published seventeen papers, either as first author or one of two authors. I have written a thesis, for a Master of Surgery Degree.

Consultant Experience

- 1) From 1991 to 1994, I was Locum Consultant for the waiting list initiative at Odstock Hospital Salisbury and Lord Mayor Treloar's Hospital Alton. I treated a variety of surgical problems, including a large amount of cosmetic surgery, which was permitted on the NHS at the time. I also undertook trauma surgery, principally for hand injuries and road traffic accidents.
- 2) I was a substantive Consultant in Plastic Surgery, at Sandwell General Hospital, from October 1994 until my retirement from clinical practice in March 2012.

I had a special interest in emergency and elective hand surgery. I organised hand clinics, multidisciplinary with rheumatology, occupational therapy, physiotherapy and neurophysiology. I developed an interest in the long term rehabilitation of hand surgery patients, in cooperation with colleagues in occupational therapy.

I had an interest in breast surgery, including breast reconstruction, breast reduction, breast augmentation and the treatment of breast asymmetry. I saw these patients at a weekly clinic in the Breast Unit.

I treated patients with all types of skin cancer. I took part in a skin cancer multidisciplinary team (MDT).

I treated soft tissue injuries, including facial injuries and soft tissue disruption associated with compound fractures. I managed patients with burns which did not threaten life. I gave advice to patients with scarring.

On the National Health Service, I performed cosmetic surgery permitted by the purchasing authorities. I took part in negotiations, to set up these purchasing arrangements for NHS cosmetic surgery. I continued to perform breast surgery and abdominoplasty, on the NHS, up to the time of my retirement.

- 3) I was the training representative for Sandwell, from 1996 to 2010. This involved the training and supervision of specialist registrars and representing Sandwell on the West Midlands Training Committee for Plastic Surgery. For the last two years, I was Chairman of the West Midlands Plastic Surgery Training Committee.
- 4) I was in private practice, from 1995 until 2008, working at the Droitwich Spa Hospital and the Wolverhampton Nuffield Hospital. Most of this private practice involved cosmetic surgery, including breast surgery, facial surgery, abdominal surgery, rhinoplasty and liposuction.

MEDICO-LEGAL WORK

I have written personal injury and clinical negligence reports, on a regular basis, since 1996 and I have produced approximately 4400 medical reports, up to October of 2020.

When I commenced medico-legal work, I obtained basic training in report writing, from the Medico-Legal Training Service. After retiring from clinical practice, I had further continuing medical education, with the objectives of keeping up to date with my areas of sub-specialisation in Plastic Surgery and updating my skills and knowledge of medico-legal practice. I have taken examinations in Law and Practice, Cross Examination Skills and Report Writing and I have been awarded the Cardiff University/Bond Solon expert witness certificate.

After appropriate assessment and appraisal, I revalidated with the General Medical Council in October of 2014. I have since had yearly assessment and appraisal in line with GMC rules and my revalidation was renewed on October of 2020. I have taken part in Mandatory Training and have completed modules in Equality and Diversity and Information Governance.

In personal injury I see clients who have sustained hand injuries (including metacarpal and phalangeal fractures), injuries to nerves, blood vessels and tendons in the upper limb, other soft tissue injuries, facial injuries (excluding fractures), scarring and burns.

I have withdrawn from clinical negligence work. I do not see clients who have undergone unsatisfactory cosmetic surgery, botox, filler injections or liposuction. I do not undertake criminal work.

<u>Approximate percentage of instructions from:</u>	Defendants	10%
	Claimants	80%
	Joint Instructions	10%

Waiting Time:

Approximately two to three weeks. Special appointments can be negotiated for clients who have difficulty with clinic times, or who travel a long way for appointments.

GENERAL AND MEDICAL EDUCATION AND QUALIFICATIONS

Education:	Cheltenham College Junior School	1954 - 1959
	Cheltenham College	1959 - 1964
	Kings College, London	1964 - 1966
